above given scatter chart

in this data I use, left,mid,right function uses  
also use vlookupfunction and lookup table and fetch data  
use upper case function  
use pivot table and pie chart  
analyse about scatter chart(allows to use specific data points on graph)

Here I use conditional formatting and use color sets to analyse the highest and lowest value  
then I arrange sorting to analyse perfectly

CR      Chrysler      CAM      Camrey  
FD      Ford      CAR      Caravan  
GM      GeneralMotors      CIV      Civic  
HO      Honda      CMR      Camereo  
HY      Hyundai      COR      Corola  
TY      Toyota      ELA      Elantra  
FCS      Focus  
MTG      Mustang  
ODY      Odissy  
PTC      PT cruiser  
SLV      Silvarado

lookup table is above used to fetch data  
serach and find data for specific information  
vlookup is used to search a value for first column and return in same row of second column
